Investment Objective and Manager Profile

The Pacific Assets Trust Plc (the 'Trust') investment objective is to achieve long-term capital growth through investment in selected companies in the Asia Pacific region and the Indian sub-continent, but excluding Japan, Australia and New Zealand (the 'Asia Pacific Region').

Up to a maximum of 20% of the Trust's total assets (at the time of investment) may be invested in companies incorporated and/or listed outside the Asia Pacific Region (as defined); at least 25% of their economic activities (at the time of investment) are within the Asia Pacific Region and this proportion is expected to grow significantly over the long term.

Stewart Investors, which has been the Trust's Investment Manager since 1 July 2010, adopts a sustainable investment strategy in selecting the investments that make up the Trust's investment portfolio. Each investment is a decision to purchase part of a real business with all the rights and responsibilities that go with this 'share' of the ownership of the company. The Trust invests in shares of companies which are positioned to benefit from, and contribute to, the sustainable development of the economies in which they operate. Investment decisions are based on identifying companies that manage risks and opportunities and contribute towards global human development without exceeding their ecological footprint.

Risk Warnings

This document is a financial promotion for Pacific Assets Trust (the "Trust") only for those people resident in the UK for tax and investment purposes.

- **The value of investments and any income from them may go down as well as up and are not guaranteed. Investors may get back significantly less than the original amount invested.**
